- The Original sanitary filter receiver

HAF

Process Equipment and Systems

MOOVINATOR HL

The original Moovinator was introduced to the market in 1999. Since its inception, we have spent years perfecting every aspect and detail through feedback from our customers (operators). Moovinator is the story of cutting our own path and backing it up with over 15 years of in the plant experience. Developed especially for use in process applications where fast change overs and sanitation are important. Moovinator HL works in either pressure or vacuum convey systems.

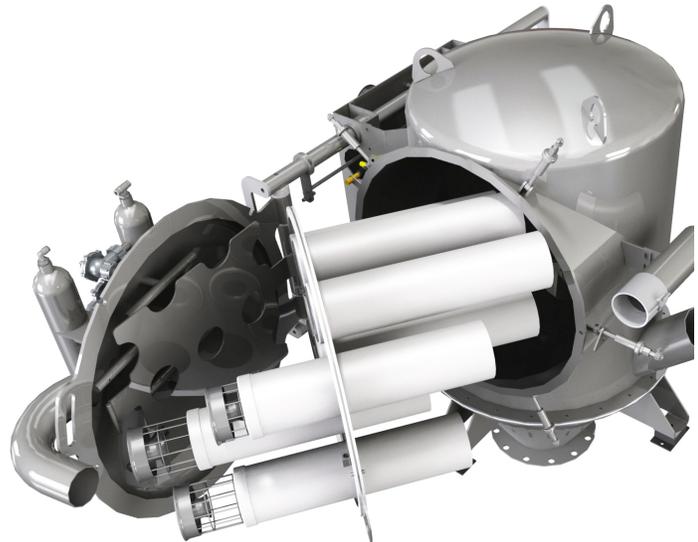

Ergonomic

- Horizontally loading filter media is easier.
- Tool free take apart
- No entry required for product zone cleaning
- Compact size-about 50% size of conventional filter
- Great for low headroom installations
- Exclusive velocity arrestor inlet increase convey rates
- Convey line size range from 2" dia to 5" dia

Sizes to match your process rates

- Compact size with full size capabilities
- Fixed blow pipes-no removal required
- Access from one side-hinged clean air plenum and tube sheet
- TIG Welded
- Modular constructions suitable for different configurations
- Sliding hinge and stationary hinge options for tube sheet assembly.
- Filter bags-no cartridges required
